July 2017	511,276.38	592,382.92	81,106.54	15.86

Monthly Revenue Change

Monthly revenue growth percentage chart excludes Sep 2016–Jan 2017 (marketplace launch period with extreme % swings from near-zero base revenue). The sharp decline in Sep–Oct 2018 likely reflects the dataset's recorded coverage ending, rather than an actual business downturn. Full history available in the table.

Delivery Delays Reduce Customer Satisfaction

Average Review Score 2.17 4.29

Average Customer Rating Over Time

Categories include only those with at least 100 reviewed orders. The sharp decline in the final month reflects the dataset's recorded coverage ending, not an actual decline in customer satisfaction. Total Reviewed Orders (96K) and the 4.15 avg. score reflect delivered orders only, matching the rest of this page. The 4.09 figure is the average across all 98.7K reviewed orders, including non-delivered ones.

bed_bath_table	168	553	65,436.59
baby	100	286	62,899.25
cool_stuff	94	458	62,460.55
housewares	109	462	48,510.51

Negative values on the avg_days_late indicate early delivery; positive values indicate late delivery.

Total Revenue at Risk by State reflects the top 10 states shown here. Full 24-state revenue at risk is R\$2.49M

Key Insights

- Watches & Gifts contributes the largest revenue exposure.
- SP (Sao Paulo) has the highest state-level revenue risk.
- Approximately R\$1.86M of seller revenue (around 11.6% of total revenue) is exposed to delivery delays or poor customer reviews.
- Prioritizing the top at-risk customers could reduce revenue exposure significantly.
